**Keynote Presentation - Being Realistic Isn’t Realistic!**
Norman Kunc and Emma Van der Klift, Broadreach Training and Resources, British Columbia, Canada

“Disability is not a ‘brave struggle’ or ‘courage in the face of adversity’…disability is an art. It’s an ingenious way to live.” - Neil Marcus

In a fast paced, entertaining presentation filled with “ah-ha” insights, Norman Kunc and Emma Van der Klift draw on their experience of disability and show how people often get trapped in the habits of inefficiency. They maintain that incessant inquisitiveness, an expectation of failure, and a defiant refusal to be realistic can not only open up new options for people with disabilities but, more importantly, it can make the process of support a lot more fun.

Norman Kunc and Emma Van der Klift have spent the last 25 years working to ensure that people with disabilities are able to take their rightful place in schools, workplaces, and communities. Although they are well known advocates within the disability rights community, they prefer to think of themselves as modern day storytellers, continuing the long held tradition of using humour and narrative to initiate self-reflection and social change.

Norman and Emma are co-directors of Broadreach Training and Resources Ltd. They provide in-service and training in the areas of inclusive education, employment equity, conflict resolution, and other disability rights issues. They travel extensively throughout North America and abroad working with school districts, human service agencies, employers and advocacy groups.

Born with cerebral palsy, Norman attended a segregated school for children with physical disabilities; then, at the age 13, he was integrated into a regular school. From there, he went on to complete an Bachelor’s degree in Humanities and a Master of Science degree in Family Therapy. When Norm isn’t working, you’ll find him sailing, cycling, or listening to jazz.

Emma is a mediator who received training and certification in third party dispute resolution and negotiation at the Justice Institute in Vancouver, B.C. She provides mediation, conflict coaching, and in-house training in conflict resolution to non-profit agencies, boards, business groups, management teams and union organizations. When Emma isn’t on the road, you’ll find her running, cycling, cooking, or reading.

Family Forums and Networking

The NJ Division of Developmental Disabilities (DDD) has embarked upon a series of County Family Forums to establish a visible presence at the County level. These forums are also intended to support the braiding together of local supports and the pursuit of an integrated community life for people with developmental disabilities in each county built on locally created vision for the future.

The Forums catalyze a partnership among self-advocates, families, private sector providers and county government to assist families to create a plan for the lifestyle they want for their child with a developmental disability. Morris, Middlesex, Monmouth, Union, Sussex, Ocean and Burlington are among the first to forge a planning community where information about resources and creative solutions is shared and individuals and their families have an opportunity to network.

Come learn about what has already happened in your County or what will be occurring and how you, as a member of the Self-directing community, can connect to your County’s activities. So stop on by the Family Forum Room and you will be able to meet members of the established County groups and learn how you can impact what is or will be going on in a community close to you.
