Welcome to the Joint Molecular Biosciences Program!

Please join us, your fellow graduate students for

GAME NIGHT!

This will be a great way to get to know your incoming classmates and current students while we PLAY GAMES and eat some FREE FOOD!

In addition to games, we will also hold a round table discussion that will give you the opportunity to ask candid questions about classes, rotations, advisors, professors etc. in a relaxed and comfortable student-only environment.

5:30pm Aug 29, 2012
Dean’s Conference Room
