1. Selected publications from 2005 to present

- Ostfeld, B, Esposito L, Straw D, Burgos J, Hegyi T. An inner-city school-based program to promote early awareness of risk factors for sudden infant death syndrome. *Journal of Adolescent Health* 2005;37(4):339-41. (The SCNJ published the only study addressing the efficacy of safe sleep education for school-aged children.)
- Ostfeld BM, Perl H, Esposito L, Hempstead K, et al. Sleep environment, positional, lifestyle and demographic characteristics associated with bed-sharing in Sudden Infant Death Syndrome Cases: A population-based study. *Pediatrics* 2006;118(5):2051-9 (This study described risks found in a shared sleep surface and was cited in support of the AAP guidelines.)
- Esposito L, Hegyi T, Ostfeld BM Educating parents about the risk factors of SIDS: The role of the NICU and well-baby nursery nurse. *Journal of Perinatal and Neonatal Nursing* 2007; 21:158-64. (This review was one of the first articles bringing evidence-based, safe sleep education to the nursing literature)
- Ostfeld BM, Hegyi T, Denk C. Newborn sleep positions, and SIDS Risk. New Jersey Department of Health and Senior Services, 2007, www.state.nj.us/health/fhs/documents/brief_sleeping.pdf
- Ostfeld BM, Esposito L, Perl H, Hegyi T. Concurrent risks in SIDS Cases. *Pediatrics* 2010;125:447-53. (SIDS without risk factors is rare, and the majority of SIDS cases have multiple concurrent risks.)
- Nepomnyaschy L, Hegyi T, Ostfeld B, Reichman, NE. Developmental outcomes of late-preterm infants at 2 and 4 years. *Maternal and Child Health Journal*. 2012;16(8)
