

VACCINE FACTS

**HAD
COVID?**

**YOU STILL NEED
THE COVID-19
VACCINE**

Fact

YOU ARE MORE LIKELY TO GET COVID-19 AGAIN

Unvaccinated people who already had COVID-19 are **two times more likely to get COVID-19 again** than fully vaccinated people ¹

Myth

I HAD COVID-19, SO I HAVE IMMUNITY AGAINST THE VIRUS

The Centers for Disease Control and Prevention (CDC) recommends waiting 90 days to get the COVID-19 vaccine after

- monoclonal antibodies or convalescent plasma COVID-19 treatment, or
- multisystem inflammatory syndrome (MIS-A or MIS-C) diagnosis

Talk to your doctor or health care provider to learn more ²
