Publications:

1. **Peer-reviewed Journals:**

Trivedi D, Xiong Z. Anaplastic myxopapillary ependymoma in an infant. *Intractable Rare Dis Res*. 2017; 6(2):128-131

Moran T, Xiong Z. Epithelioid angiolipoma. *ACR Case in Point.*
August 2013

Liu L, Vo V, Ware M, Xiong Z. Asperger's syndrome with unusual cerebral pathology: Case report and literature review. *Intractable Rare Dis Res.* 2012; 1(2): 92-94

Yoshimoto K, Dang J, Zhu S, Nathanson D, Huang T, Dumont R,

Xiong Z, Farilla L, Guo J, McLachlan S. Does the autoantibody immunodominant region on thyroid peroxidase include amino acid residues 742-771? *Thyroid.* 2001; 11(3): 227-231

Xiong Z, Tsark W, Singer-Sam J, Riggs AD. Differential replication timing of X-linked genes measured by a novel method using single-

Xiong Z, Xie S, Xiao G, Zhu D. DNA extraction from a trace amount of chorionic villi: a comparative study. *Journal of Central South University (Medical Sciences).* 1993; 18: 98-100

2. Books and Book Chapters:

Xiong Z. Primary intracranial leiomyosarcoma. In: *Leiomyosarcoma: Risk Factors, Diagnosis and Treatment Options.* Hauppauge.
NY, Nova Science Publishers, Inc. 2014

**National and International Presentations:**

Liqiong Liu, Narayan P, Xiong J, Xiong Z. Anaplastic glioneuronal tumor with KIAA1549/BRAF fusion. Presented at the *95th Annual Meeting of the American Association of Neuropathologists, Atlanta, June 2019*

Lobo M, Collins V, Xiong Z. A rare hepatocellular metastasis to the esophagus: a case report and literature review. Presented at the *ASCP 2018 Annual Meeting, Baltimore, October 2018*

Trivedi D, Xiong Z. Anaplastic myxopapillary ependymoma in an infant. Presented at the *93rd Annual Meeting of the American Association of Neuropathologists, Garden Grove, June 2017*

Xiong Z. Pathologist’s role in multidisciplinary cancer care. Presented at *Juzhou City Physician Association Annual Meeting, China, June 2015*

Liu L, Liu X, Zhang H, Ware M, Yan D, Xiong Z. Overexpression of Eg5 correlates with high grade astrocytic neoplasm. Presented at the *Ninetieth Annual Meeting of the American Association of Neuropathologists, Portland, June 2014*

Interleukin-17 promotes development of castration-resistant prostate cancer in mice. Presented at the 2012 SBUR Fall Symposium, Miami, November 2012

Xiong Z. Focal cortical dysplasia: from laboratory to clinic. Invited presentation at Wenzhou Medical College, China, May 2012

Xiong Z. Biomarkers for predicting response of glioblastoma to EGFR tyrosine kinase inhibitors. Invited presentation at University of New Mexico, August 2011

Liu L, Vo V, Ware M, Xiong Z. Asperger's syndrome with unusual cerebral pathology: Case report and literature review. Presented at the Eighty-Seventh Annual Meeting of the American Association of Neuropathologists, Seattle, June 2011

Cauble S, Hefler H, Whitling N, Xiong Z, Balart L. Drug-induced liver injury secondary to Etanercept. Presented at the 75th ACG
Annual meeting, San Antonio, October 2010

Xiong Z, Li L, Xia J. Detection of chromosomal fragile sites in short-term cultured chorionic villi. Presented at the First China-Japan Human Genetics Symposium, Beijing, China, 1992
