OVERALL EDUCATIONAL GOAL OF ELECTIVE

To develop medical education instructional/evaluation materials and/or
To participate in a medical education research project

OBJECTIVES

- Students will develop a research question or statement of intent
- Students will provide a rationale for the intervention
- Students will review education literature relevant to their individual goals/objectives
- Students will outline their approach to assessment and /or evaluation
- Students will plan appropriate data analysis if required
- Students will discuss appropriate venue for presentation/publication of project with mentor

BRIEF DESCRIPTION OF ACTIVITIES

Each student will develop an individualized plan *prior* to the start of the elective and attempts will be made to provide requested experiences during the weeks of the elective.* Students will develop a medical education instructional and/or evaluation unit, begin a new medical education research project or participate in an ongoing project. Research relevant to medical education will be reviewed; reading medical education journals is required. Students may assist in research being conducted by the Office of Education/Department of Obstetrics, Gynecology, and Reproductive Sciences.

METHOD OF STUDENT EVALUATION

Supervising faculty will assess student performance based on achievement of individual teaching/research objectives. Students will self-assess performance in collaboration with supervising faculty.

ARE THERE ANY PREREQUISITES FOR THIS ELECTIVE? Yes, CITI and or HIPAA Certification if required for proposal

IS THIS ELECTIVE AVAILABLE TO THIRD YEAR MEDICAL STUDENTS AS WELL? Yes

***Note:** 4th Year Students: Contact Dr. Pradhan at least 2 months prior to the elective.
3rd Year Students: Contact Dr. Pradhan at 5 weeks prior to the elective.

****Note:** No more than 2 students will be allowed at any one time, irregardless of the length of the elective for any one student.
