NOTE: THIS IS NOT AN INDIVIDUAL ELECTIVE. THIS IS 1 OF 5 'SUBSPECIALTIES' BEING OFFERED UNDER THE ELECTIVE: PMR 9000 – PHYSICAL MEDICINE AND REHABILITATION. PLEASE REGISTER FOR THE PMR 9000 ELECTIVE IF YOU ARE INTERESTED.

EDUCATIONAL GOAL OF ELECTIVE

To introduce students to the specialty of Physical Medicine and Rehabilitation. To become familiar with the needs of individuals with disabilities and to be able to diagnose and treat diseases unique to these individuals. To work closely on an interdisciplinary inpatient rehabilitation service which will include both didactic teaching and clinical instruction in the field of inpatient Physical Medicine and Rehabilitation.

OBJECTIVES

- To learn how to effectively communicate with members of the rehabilitation team.
- To learn how to prescribe Physical Therapy, Occupational Therapy and Speech Therapy.
- To become familiar with the areas of Orthopedic Rehabilitation, Neurological Rehabilitation, and Cardio-Pulmonary Rehabilitation.
- To incorporate comprehensive care as part of the therapeutic services provided on an inpatient basis.

BRIEF DESCRIPTION OF ACTIVITIES

The student will do rounds on an inpatient service with Attending and Residents. The student will interact with the full interdisciplinary team to include Occupational, Physical and Speech Therapy as well as Psychology and Nursing. The student will participate in appropriate medical evaluation, consultations and follow-up recommendations.

METHOD OF STUDENT EVALUATION

Direct observation of clinical and interpersonal skills by the Attending and the Resident on the inpatient service
