

# **A RANDOMIZED CLINICAL TRIAL OF PERSISTENCE TARGETED SMOKING CESSATION IN SCHIZOPHRENIA**

We are conducting a research study designed to help smokers with schizophrenia quit smoking. We provide counseling and nicotine patches.

If you are an adult smoker with schizophrenia or schizoaffective disorder between the ages of 18 and 70, you may qualify to participate in this study.

Participants are paid up to \$100 over 4 months and receive counseling and nicotine patches.
